

The Indicators released from the Financial Inclusion datahub revealed the remarkable progress in the percentage of financially included citizens (16 years and above), reaching 64.8% by the end of 2022, with a growth rate of 147% during the period from 2016 to 2022. The upsurge was driven by the increase in mobile wallets and prepaid cards, whereas mobile wallets grew by 54%, prepaid cards mounted by 31%, and access points achieved a growth rate of 107% during the period from 2020 to 2022.
